

Background:

DECE Sales & Construction CC is a young dynamic company situated in Ceres, the heart of the Witzenberg apple, pear & stone fruit area. We design, build and provide fruit sizers all over the country. Services & assistance is also available nationally to ensure high quality service to our clients. DECE is involved in the design of the sizer as well as pack house layouts in 2D & 3D. Our main focus is to put all our attention on quality and high standards during the manufacturing process. All projects will be delivered promptly to ensure that all the client's needs are satisfied.

Ellips Software:

Ellips from Holland is the leading supplier of electronics & optical software. The company started in 1989, and has more than 2500 systems running internationally.

Online assistance & user friendly software is supplied by Ellips.

Weight, length, diameter, color,
shape & injury sorting

We provide a solution for your pack house:

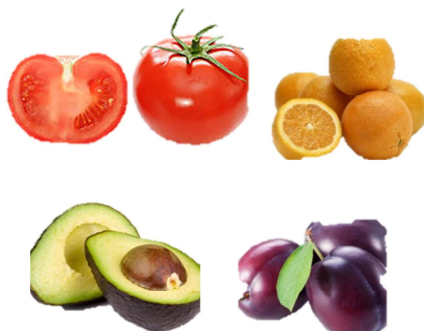

- Build & design of any pack house equipment
- Retrofit current sizers using Ellips software
 - Pack house layouts in 2D & 3D
- Weight, length, diameter, color, shape & defect sorting with Ellips electronics
 - Any other pack house equipment

Start packing your own fruit on our new Packman C2, two lane cup sizer and pack up to 20 Tons per day. It can fit into an existing Pack house.

Get up to 27% more for your fruit.
